- Facility Signage was installed in 2011
- New railings were added to the stairs leading to the press box

### Future Plans

- See 5 year Park Plan Matrix

### Additional Notes/Comments

Lake Park ball diamond is currently the only ball diamond with lights maintained by the City of Antigo Park and Recreation Department. This field is primarily used for varsity softball games and bar league softball. However, to allow for evening baseball tournaments the mound is temporarily moved through a cooperative agreement with league organizers. The close proximity of a concession stand complete with grills, walk-in freezer and coolers allow for large events to take place with relative convenience. The restrooms and playground equipment directly adjacent to the field make this a family friendly environment. The Antigo Lake RV Park makes this facility ideal for tournaments and visitors from out of town.
