

Winter

Overnight Parking

A winter parking ban is in effect from November 1 through March 31. During this time, parking will not be allowed on City streets from 2:30 a.m. to 6:00 a.m. Overnight parking will be allowed in municipal lots that are specifically designated for permit parking only. Permits will be issued on a first-come, first-serve basis. Each parking permit will specify the designated area for parking.

Parking Permits Available

Permit Fees for Winter Parking in Municipal Lots

Monthly permit - \$30 plus sales tax
Season permit - \$130 plus sales tax

Where to go: Antigo Police Dept.
840 Clermont St
(Entrance off 2nd Ave)

Hours: 8:00 am - 5:00 pm
Sunday - Saturday

Sidewalk Snow/Ice Removal

Property owners and/or occupants of any lot or parcel of land in the city are reminded that it is their responsibility to keep the public sidewalk adjacent to their property clear of snow and ice, as well as the public crosswalks that may adjoin their property. Snow and ice should be cleared from the full width of the sidewalk within 48 hours after the sleet or snow. Snow-covered or icy sidewalks present a public safety hazard and create a great deal of inconvenience to pedestrians. The snow/ice covered sidewalks must be cleared appropriately. If after 48 hours, the snow/ice is not cleared as it should be, the City will remove the accumulation of snow and ice. The property owner will be billed accordingly. This fee will be charged as a special tax against the property. A doorhanger will only be posted the first offense of the season. Letters will not be sent out regarding the snow/ice removal. Residents are also reminded that shoveling, plowing, or blowing snow from the sidewalks and driveways into the street is not permitted. Help make the city sidewalks safe for pedestrians!

Snow/Ice Removal Fee Schedule

1st occurrence: Fee for service plus \$50 admin fee
2nd occurrence: Fee for service plus \$75 admin fee
3rd & subsequent occurrence: Fee for service plus \$100 admin fee

Salt/Sand Mixture

The City of Antigo has free salt/sand available for city residents at the Street Department location 1020 Pierce Ave.

Bring your own bucket and check in at the office.

Fix a Leak Week

Fix a Leak week is celebrated in March of each year as a time to remind Americans to check their household fixtures and irrigation systems for leaks.

The Facts on Leaks:

- Leaks can account for, on average, 10,000 gallons of water wasted in the home every year, which is enough to fill a backyard swimming pool.
- The amount of water leaked from U.S. homes could exceed more than 1 trillion gallons per year. That is equivalent to the annual water use of Los Angeles, Chicago, and Miami combined.
- Ten percent of homes have leaks that waste 90 gallons or more per day.
- Common types of leaks found in the home include leaking toilet flappers, dripping faucets, and other leaking valves. All are easily correctable.
- Fixing easily corrected household water leaks can save homeowners more than 10 percent on their water and sewer bills.
- Keep your home leak-free by repairing dripping faucets, toilet valves, and showerheads. In most cases, fixture replacement parts don't require a major investment and can be installed by do-it-yourselfers.
- The vast majority of leaks can be eliminated after retrofitting a household with new WaterSense label fixtures and other high-efficiency appliances.

Did You Know?

PAYMENT DROP BOX

For your convenience, we have a drive-thru payment drop box located in our parking lot off Dorr Street.

The drop box stands in the parking island near our building.

Drive through and save a stamp!

Water & Sewer rates will be increasing in 2012.

Running toilets move fast!

Toilets:

- If your toilet is leaking, the cause is most often an old, faulty toilet flapper. Over time, this inexpensive rubber part decays, or minerals build up on it. It's usually best to replace the whole rubber flapper—a relatively easy, inexpensive do-it-yourself project that pays for itself in no time.
- If you do need to replace the entire toilet, look for a WaterSense labeled model. If a family of four replaces its older, inefficient toilets with new WaterSense labeled ones, it could save more than 16,000 gallons per year. Retrofitting the house could save the family approximately \$2,000 in water and wastewater bills over the lifetime of the toilets.

Faucets and Showerheads:

- A leaky faucet that drips at the rate of one drip per second can waste more than 3,000 gallons per year. A home with WaterSense labeled toilets could use that water to flush for six months!
- Leaky faucets can be reduced by checking faucet washers and gaskets for wear and replacing them if necessary. If you are replacing a faucet, look for the WaterSense label.
- A showerhead leaking at 10 drips per minute wastes more than 500 gallons per year. That's enough water to wash 60 loads of dishes in your dishwasher.
- Most leaky showerheads can be fixed by ensuring a tight connection using pipe tape and a wrench.

Leak Detection:

- A good method to check for leaks is to examine your winter water usage. It's likely that a family of four has a serious leak problem if its winter water use exceeds 12,000 gallons per month.
- Check your water meter before and after a two-hour period when no water is being used. If the meter does not read exactly the same, you probably have a leak.
- One way to find out if you have a toilet leak is to place a drop of food coloring in the toilet tank. If the color shows up in the bowl within 15 minutes without flushing, you have a leak. Make sure to flush immediately after this experiment to avoid staining the tank.

Programs and Community Events

Over the river, and through the woods...
thru the City of Antigo

Winter Wonderland

Take a scenic stroll along the Springbrook Trail. Christmas lighting and Season's Greetings decorate the path from Fourth Avenue to Hudson Street near Lake Park. We anticipate this to be a growing tradition for years to come!

Sledding

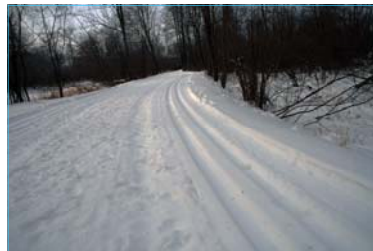

Take a break after school and head to the sledding hill located in the city off First Ave (between Edison St and Dorr St).

X-Country Skiing.....in the City

Springbrook Walking Trail
(North Section):

Over 2 miles of groomed trail.

Winter Activity Guide

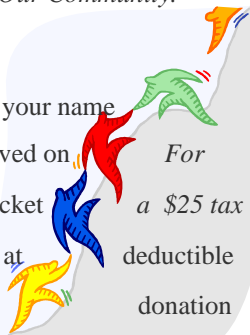

Scan the QR code on the left for the entire Winter Guide.

A Playground

Built by Our Community!

Have your name engraved on the picket fence at the playground
For a \$25 tax deductible donation

The City of Antigo would like to remind you to keep Antigo Clean & Green.

Reduce, Reuse, Recycle

Parks and Recreation

INDOOR OPEN SKATE

Free with donation of a canned good

Location: Langlade County Fairgrounds Multipurpose Building

Dates: Tuesday, December 27
Friday, January 20
Monday, February 13
Monday, March 5

Times: 12:00 pm - 1:30 pm

***Children must be accompanied by an adult**

A limited supply of skates available for use during the open skates

A special thank you to the Antigo Area Youth Hockey Association for sponsoring the Open Skates

OUTDOOR SKATING RINKS

Third Ward Park

Enjoy skating at Third Ward Park located off 2nd Ave & Deeglise St.

Outdoor Hockey Rink

Located off 1st Avenue (in between Edison St & Dorr St)

This rink has nets, full boards and lights.

Peaceful Valley Park

Near the community built playground, this large rink has lighting for evening skating and a warming house.

Rink conditions are weather dependent.
