

Springbrook Trail

2.26 Miles

Loop from 4th Avenue Dam, to Second Avenue, Across the 1,800 foot boardwalk, west to North Elementary and South along Arctic Street

General Park Description

Completed in 2010 the Springbrook Trail with accompanying 1,800 foot boardwalk is a site to behold. The trail winds through 4 park areas and a wilderness area - all within city limits. It is just over 2 miles and plans are already in place to expand the trail as funding is available.

A walk on the wood chipped loop in the northern natural area. almost guarantees seeing deer and other wildlife.

The section from the 4th Avenue Dam to Second Avenue is landscaped with various trees and plantings. This section is also lit with low level light pedestals for evening walks or early morning runs.

Enjoy the 10 foot wide boardwalk which was completed in the winter of 2010. The decking is composite and the railings are treated lumber.

The trail is just over 2 miles if you chose to walk all the sections. Bikes, rollerblades and walkers are all welcome. Remember to be a courteous trail user - keep pets on a leash and pick-up pet waste. Bike or walk on the right when the trail is busy or you are coming to a blind corner. Signal to those you are passing and most of all enjoy the beauty of the Springbrook Trail.

 - 2 gated entrances (Virginia Street and Byrne Road)

Ball Diamonds

Recreational softball and baseball leagues are popular activities in the City of Antigo. There are a number of bar leagues, church leagues and youth baseball and softball programs. There are a minimum of two tournaments during the summer season that bring a number of visitors to the community. The fields are also utilized by the Unified School District of Antigo for their varsity, junior varsity and freshman softball and baseball programs. In addition to the high level of usage from leagues and the schools the fields also see use from groups hosting events that are renting shelters.

Due to the high level of use our baseball and softball fields see each year we strive to provide updated and well maintained facilities. Over the past five years our fields have seen a number of upgrades including top dress material on three fields (allowing for play in wet conditions), facility upgrades to Senior League and North Clermont, and additional administrative processing to assist with ease of field reservations and access to information. A theme that will be seen in all of our parks, as well as the ball diamond facilities, is visible signage.

We will continue facility upgrades as funding is available. The direction of our improvements is determined by feedback from field users and the general public.
