GENERAL SPECIFICATIONS

The following specifications are intended to serve as general guidelines to obtain bids on comparable equipment. It is the intent of these specifications to describe a unit that we feel best meets our requirements. These specifications are to be considered minimum specifications unless stated otherwise. The vehicle will include all necessary standard equipment and shall be furnished and delivered complete (F.O.B. Antigo) and ready for immediate use. The bid information shall itemize in detail all standard and accessory equipment. The proposed vehicle shall be equal to or exceed the following specifications, and shall conform to all safety and OSHA regulations. All parts not specifically mentioned which are necessary to provide a complete operating vehicle shall be included in the bid and shall conform in strength, quality of material, and workmanship to what is usually provided by the manufacturer and generally accepted by industry.

The bidder shall describe in detail those areas where their vehicle does not comply with these specifications. Any alternate vehicle or material deviating from the specifications must be noted with the bid proposal. Deviations may or may not be considered informalities in bidding. Deviations that may or may not be accepted by the City shall also be described in detail. Failure to do so may result in disqualification of the bid.

The term "standard" is defined as that equipment listed or shown as standard equipment at no extra cost in the manufacturer's current publications.

The City of Antigo reserves the sole discretion in determining the best and most qualified bid. The decision to purchase will be based on price, performance, maintenance, availability of parts/service, vehicle warranty, evaluation of quality, past experience and projected delivery date.

The City of Antigo reserves the right to reject any and all bids, and determine the choice of vehicle in the best interests of the City after considering those criteria mentioned in the preceding paragraph.

FUTURE WARRANTY & RECALLS

Any need for future warranty work (or repairs based on recall notices) must be fully supported by the bidder. If warranty work or recall repairs need to be performed on the vehicle, then the successful bidder shall pick-up the vehicle at City Hall or Street Shop and subsequently return it when the work is completed; repairs and transport of the vehicle to be at the bidders cost.

VEHICLE DELIVERY DATE

Should bidder fail to make delivery (F.O.B. Antigo) as specified on the proposal sheet, there shall be deducted from the contract payment, the sum of five dollars (\$5.00) per day for each calendar day that the deliveries are late. This sum shall be considered as agreed upon fixed liquidated damages due the City of Antigo from the bidder by reason of inconvenience to the public and the City of Antigo. In case of a strike or unforeseen disaster, of which the dealer has no control, the City will waive this liquidated damage clause for the actual number of days associated with the impact. This shall in no way be construed as a waiver of any other rights under the contract.

INTENT

It is the intent of these specifications to describe a unit, which will consist of the manufacturer's new model year (2019). The mid-sized sport utility vehicle will include all necessary equipment and shall be furnished and delivered new, complete and ready for immediate use. All parts not specifically mentioned but which are necessary for the complete unit shall be supplied and installed by the bidder even though such work or materials are not specifically outlined in this document.
