

Springbrook Bicycle/Pedestrian Trail Expansion WisDOT TAP Funded Project Notice of Scope Change to West Project Area:

The west project area of the trail expansion project has been modified to avoid unnecessary environmental impacts, reduce future maintenance costs, and keep the project on schedule for an anticipated 2024 construction.

- Areas of trail around the west and north side of the Remington Stormwater pond have been removed from the project. The trail is still planned to connect 1st Ave and run along the east side of the pond to Hogan St
- The west area trail constructed during this project will now end at the east end of Center Street
- Future City projects are expected to provide additional connections per City long range planning
